

# Coconut Oil, Certified Organic

## Description:

Cocos nucifera

certified organic, BioGro

cold pressed, virgin

100% pure

Colour: Clear when liquid; white when solid

Origin: Sri Lanka

Comedogenic rating: 4

Slow absorption rate

Good for very dry skin and full body use

Coconut oil is solid at room temperature (except in summer) so gentle heating is required.

## Benefits:

Coconut oil is the number one lather-producing agent used in soapmaking and is a first choice for most people in the cosmetics and soap industry. It is a good oil for general moisturising and serves as a protective layer, helping to retain the moisture in your skin. It also acts as a mild oil suitable for those with inflamed and irritated skin.
