

Olive Oil, NZ Certified Organic

Description:

Olea europaea
certified organic, Demeter NZ
cold pressed, virgin
100% pure Frantoio/Leccino/Barnea blend olive oil
Colour: Dark green
Origin: NZ

Comedogenic rating: 2
Average absorption rate
Good for most skin types, including dry and acne prone skin

Benefits:

Olive oil is by far the most universal of oils, used for cosmetics, as a carrier oil, for hair care, and cooking. Olive oil has a good conditioning effect in skin care recipes and can be used in almost all applications because of its stability. It has a long absorption time, is a good massage oil and in creams is often used when some extra protection is required, say in water-proofing.
